

The Café of Choice™

COSTLESS EXPRESS

Introducing FLAVIA!

With the FLAVIA system, you won't have to leave the office to get a delicious hot beverage. The fine range of FLAVIA gourmet coffees, fresh leaf teas and hot chocolate rival the very best coffee houses. In fact, the FLAVIA system represents the best way to prepare a fresh, quality cup of steaming coffee or tea at work. You get a great quality drink, time after time. And all at the touch of a button.

The FLAVIA Difference

It's simple: a unique Brew-by-Pack technology that pioneered the single-serve category. Each FLAVIA Filterpack brews directly from pack to cup. So each drink is pure, fresh and untainted from the previous brew—with no mess and no cleanup needed. That means your French Roast doesn't taste like her Japanese Green Tea and vice versa.

The FLAVIA system is like having your own barista right down the hall. It's designed to meet everyone's taste no matter how diverse your employees - or clients - happen to be.

Direct & Pure From Pack To Cup

FLAVIA's ingenious 'Brew-by-pack' technology uses individual mini Filterpacks of fresh ground coffee and real leaf tea — foil sealed for absolute freshness until the moment they transform into delicious drinks.

Hidden inside each FLAVIA pack is a specially designed filter, pre-filled to contain just the right amount of coffee or tea for a single cup.

The uniquely designed FLAVIA drinks station brews direct and pure from pack to cup, giving you a perfect quality controlled drink every time.
